

In the Specification

Please replace the paragraph beginning on page 38, line 18 with the following amended paragraph:

II. Production of two recombinant MAGE-A1 proteins

A- Production of the LipoD-MAGE-A1-His protein in *E. coli*

The recombinant LipoD-MAGE-A1-His protein was produced by the SmithKline Beecham Corporation Pharmaceutical Company (Rixensart, Belgium). It contains one third of the sequence of the *Haemophilus influenzae* Lipo D protein at its N-terminal extremity and a polyhistidine marker of 7 residues (SEQ ID NO:73) at its C-terminal end, with MAGE-A1 protein (SEQ ID NO:2) between the Lipo D and His termini. This recombinant protein was produced in *E. coli* and is hereafter referred to as protein MAGE-A1*.

Please substitute the Sequence Listing filed herewith for the previously filed Sequence Listing.
